

Addendum to Air Quality Action Plan for Runnymede Borough Council, April 2014

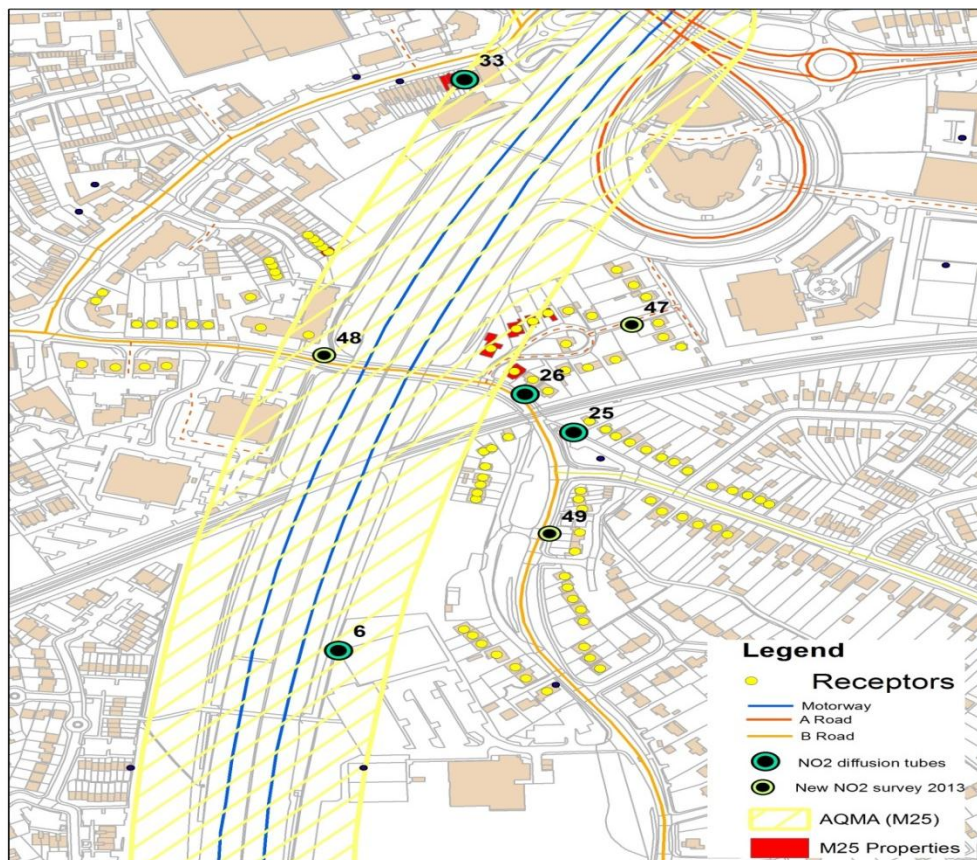

2.2.2 Air Quality in Runnymede

14.1 Additional diffusion tube monitoring was carried out in the Vicarage Road area to further inform the proposed extension of the AQMA. The monitoring was carried out at 3 points (RY47, RY48 and RY49) for 3 months and showed the following results:

Table 2.15 Raw data results of short term monitoring of Nitrogen Dioxide Diffusion Tubes in the Vicarage Road Area 2013

Site ID	Results		
	October 2013	November 2013	December 2013
RY47	29	50.0	40.0
RY48	42.0	53.0	56.0
RY49	47.0	51.0	56.0

Figure 2.05

14.2 The raw data shows exceedences above the $40 \mu\text{g}/\text{m}^3$, which will be used as additional evidence to potentially, increase the area of the AQMA in the vicarage road area (current M25 AQMA).
