The Conservation (Natural Habitats, &c.) Regulations 1994

PART IV

ADAPTATION OF PLANNING AND OTHER CONTROLS

General provisions for protection of European sites

Assessment of implications for European site

48.—(1) A competent authority, before deciding to undertake, or give any consent, permission or other authorisation for, a plan or project which—

- (a) is likely to have a significant effect on a European site in Great Britain (either alone or in combination with other plans or projects), and
- (b) is not directly connected with or necessary to the management of the site,

shall make an appropriate assessment of the implications for the site in view of that site's conservation objectives.

(2) A person applying for any such consent, permission or other authorisation shall provide such information as the competent authority may reasonably require for the purposes of the assessment.

(3) The competent authority shall for the purposes of the assessment consult the appropriate nature conservation body and have regard to any representations made by that body within such reasonable time as the authority may specify.

(4) They shall also, if they consider it appropriate, take the opinion of the general public; and if they do so, they shall take such steps for that purpose as they consider appropriate.

(5) In the light of the conclusions of the assessment, and subject to regulation 49, the authority shall agree to the plan or project only after having ascertained that it will not adversely affect the integrity of the European site.

(6) In considering whether a plan or project will adversely affect the integrity of the site, the authority shall have regard to the manner in which it is proposed to be carried out or to any conditions or restrictions subject to which they propose that the consent, permission or other authorisation should be given.

(7) This regulation does not apply in relation to a site which is a European site by reason only of regulation 10(1)(c) (site protected in accordance with Article 5(4)).
