

'Be a Stop Idol' Anti-Idling Poster Competition

To enter the idling poster competition, please draw your entry in the box below. We want you to be as creative as possible with your poster and use all your imagination to think of how you could encourage drivers to switch off their engines when they are not moving.

But remember, there are some key things that you should consider including in your poster:

- Use bold, colourful images and writing can be seen from far away
- Give a polite but clear instruction on what you want drivers to do. Use some catchy or rhyming wording that they will remember.
- Remind them about why idling is a bad thing – it creates damaging pollution, harms the environment, and costs money.
- A positive suggestion about what they could do instead – spread the word or walk/cycle to school instead of driving.
